

2012-2013 Winter Canola Performance Trials

El Reno, Ok.

Field Notes: Trial was planted on September 19, 2012 into a tilled seedbed with fair moisture. Unfortunately on May 31, 2013 a tornado passed over the trial causing severe lodging and some pod loss. Early maturing cultivars exhibited more shatter loss. Plots were direct harvested on June 24, 2013.

Table 1. Selected cultivar seed yields for the **glyphosate tolerant** winter canola performance trial near El Reno, OK in 2012-2013.

2012-2013 Winter Canola Performance Trials

Fort Cobb, Ok.

Field Notes: Trials were seeded on October 4, 2012 into a tilled soft moist seed bed. Fall stands were reduced due to drought and early freezes. Plots were swathed on June 6, 2013 and later harvested on June 14, 2013.

Table 1. Selected cultivar seed yields for the **conventional** winter canola performance trial near Fort Cobb, OK in 2012-2013.
